SPECIAL ISSUE

BIOGEOMORPHOLOGY, TERRESTRIAL AND FRESHWATER SYSTEMS

Proceedings of the 26th Binghampton Symposium in Geomorphology, held October 6–8, 1995

Edited by

C.R. HUPP[a], W.R. OSTERKAMP[b] and A.D. HOWARD[c]

CONTENTS

Preface vii
Little River revisited — thirty-five years after Hack and Goodlett
W.R. Osterkamp, C.R. Hupp and M.R. Schening 1
Ecological perspectives on rock surface weathering: Towards a conceptual model
H. Viles 21
Effects of vegetation change on interrill runoff and erosion, Walnut Gulch, southern Arizona
A.D. Abrahams, A.J. Parsons and J. Wainwright 37
Interactions between semi-natural vegetation and hydrogeomorphological processes
A.M. Gurnell and K.J. Gregory 49
Flow resistance and sediment transport by concentrated overland flow in a grassland valley
I.P. Prosser, W.E. Dietrich and J. Stevenson 71
Short and long term effects of bioturbation on soil erosion, water resources and soil development in an arid environment
A. Yair 87
Geobotanical assessment in the Great Plains, Rocky Mountains and Himalaya
J.F. Shroder, Jr. and M.P. Bishop 101
Channel metamorphosis, floodplain disturbance, and vegetation development: Ain River, France
R.A. Marston, J. Girel, G. Pautou, H. Piegay, J.-P. Bravard and C. Arneson 121
Large woody debris, physical process, and riparian forest development in montane river networks of the Pacific Northwest
K.L. Fetherston, R.J. Naiman and R.E. Bilby 133
River stabilisation due to changing climate and vegetation during the late Quaternary in western Tasmania, Australia
G.C. Nanson, M. Barbetti and G. Taylor 145
Mapping the response of riparian vegetation to possible flow reductions in the Snake River, Idaho
W.C. Johnson, M.D. Dixon, R. Simons, S. Jenson and K. Larson 159
Woody vegetation and channel morphogenesis in low-gradient, gravel-bed streams in the Ozark Plateaus, Missouri and Arkansas
R. McKenney, R.B. Jacobson and R.C. Wertheimer 175
Geomorphology, disturbance, and the soil and vegetation of two subtropical wet steepland watersheds of Puerto Rico
F.N. Scatena and A.E. Lugo 199
Spatial patterns of hydrology, geomorphology, and vegetation on the floodplain of the Amazon River in Brazil from a remote sensing perspective
L.A.K. Mertes, D.L. Daniel, J.M. Melack, B. Nelson, L.A. Martinelli and B.R. Forsberg 215
The cow as a geomorphic agent — A critical review
S.W. Trimble and A.C. Mendel 233
Sedimentation rates and patterns in beaver ponds in a mountain environment
D.R. Butler and G.P. Malanson 255
A recent downward expansion of shoreline shrubs at Lake Bienville (subarctic Quebec)
Y. Bégin and L. Filion 271
